

## Buying Souvenirs

Shopping is an important part of your vacation.

Souvenirs are a way of connecting to the world around you and remembering your vacation.

Your trip price covers all costs except the souvenirs and snacks you decide to purchase. So all your spending money is just for fun extras!

### Before the Trip

Have your spending money ready when Special Journeys picks you up.

OR

Send Special Journeys a check so your tour leader will have cash ready for you.

### When We Pick You Up

If you will be holding your spending money during the trip, keep it with you.

OR

If Special Journeys will be holding your spending money, hand it to the driver, who will place it safely in a custom bag labeled with your information.

### During the Trip

We keep you informed about the stores and shopping experiences that lie ahead on the vacation.

When Special Journeys holds your spending money, we store the receipt for each transaction in your personalized bag. We use computer software to track each transaction, assist you with budgeting, and give you current balances.

### After the Trip

When we drop you off, we make sure you have your souvenirs with you.

If Special Journeys has held your spending money, we return to you any money you haven't spent. We also give you a printed tracking sheet listing each of your transactions and an accounting of the funds that we hold, and we give you your receipts for each transaction.
